Complete workflow & management system

Today's most technologically-advanced eMAR solution for LTC Nursing.

The **Shelly's Medication Services eMAR** is a complete workflow and management system that sets itself apart with intuitive user interface and common-sense function. The Shelly's eMAR promotes enhanced workflow efficiency, medication charting accuracy and a safer medication management process to ensure your facility delivers superior resident care.

Easiest to use and implement

- › Developed by LTC professionals with LTC professionals in mind.
- › Comprehensively guided medication pass.
- › Simplified medication and clinical care workflow process for nurses.
- › Quick and easy adoption by nursing staff or temporaries.

Substantially reduce opportunities for medication errors

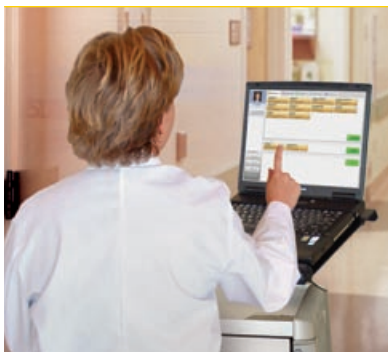

- › Peace-of-mind and survey readiness through accurate medication administration charting.
- › Select resident picture ID before administering medications.
- › Eliminate inefficiencies of paper MAR charting forms.

Greatly enhance communications and streamline workflow

- › Constant connection to pharmacy for 24/7 access to eMAR data from anywhere - at any time!
- › Audit and QA reports for administrators and nurse managers available in real-time.
- › Eliminate time spent on the monthly recap process.

Designed specifically for long-term care

- › Created by a team of experienced LTC professionals with over 80 years of facility, pharmacy and operations experience.
- › The most technologically-advanced eMAR solution available today.
- › The cleanest visual interface and most intuitive workflow path of any eMAR.
